Joint BS/MS in Chemistry

Students who achieve advanced academic standing through their performance on placement examinations or accreditation examinations may consider the formulation of a four-year degree program that leads to the concurrent award of the Joint BS and MS degrees in Chemistry (https://chemistry.uchicago.edu/joint-bsms-degree-program/).

To be considered for admission, students must: (1) complete all general education (core) requirements prior to their expected first quarter in the joint degree program; (2) provide a copy of their Stellic report showing completed and in-progress courses as part of their application materials; and (3) meet with the appropriate contact in the MS program as required per that graduate program.

For more information, consult Vera Dragisich at vdragisi@uchicago.edu or the Chemistry Department at chem-dus@lists.uchicago.edu.
